Thomas H. Moodie, State Administrator

Dauben- \$3.50

The Historical Records Survey, under the national direction of Dr. Luther H. Evans, was established as a Nation-wide project in January 1936, under the Women's and Professional Division of the Works Progress Administration as a part of the Federal Writers' Project. In North Dakota the Survey began operations in March 1936, under the supervision of the present State Supervisor, Public Records Project as assistant State supervisor. In October 1936, the Survey became an independent part of Federal Project No. 1, but no changes were made in the administration and operation.

The objective of the Survey in North Dakota has been the preparation of complete inventories of the records of State, county, city, and other local governmental units as well as church, newspaper, and certain private historical records.

The Guide to Church Vital Statistics Records is arranged alphabetically by the name of the county, alphabetically by the name of the town within the county, and alphabetically by denominations within each town. Contained in each entry is the name of the record, dates covered by it, contents, quantity, and name and address of custodian. Where no information was obtained on the records of the church listed, a statement to this effect is made.

Information for this work was obtained by field workers of the Historical Records Survey and through correspondence with officials of the churches.

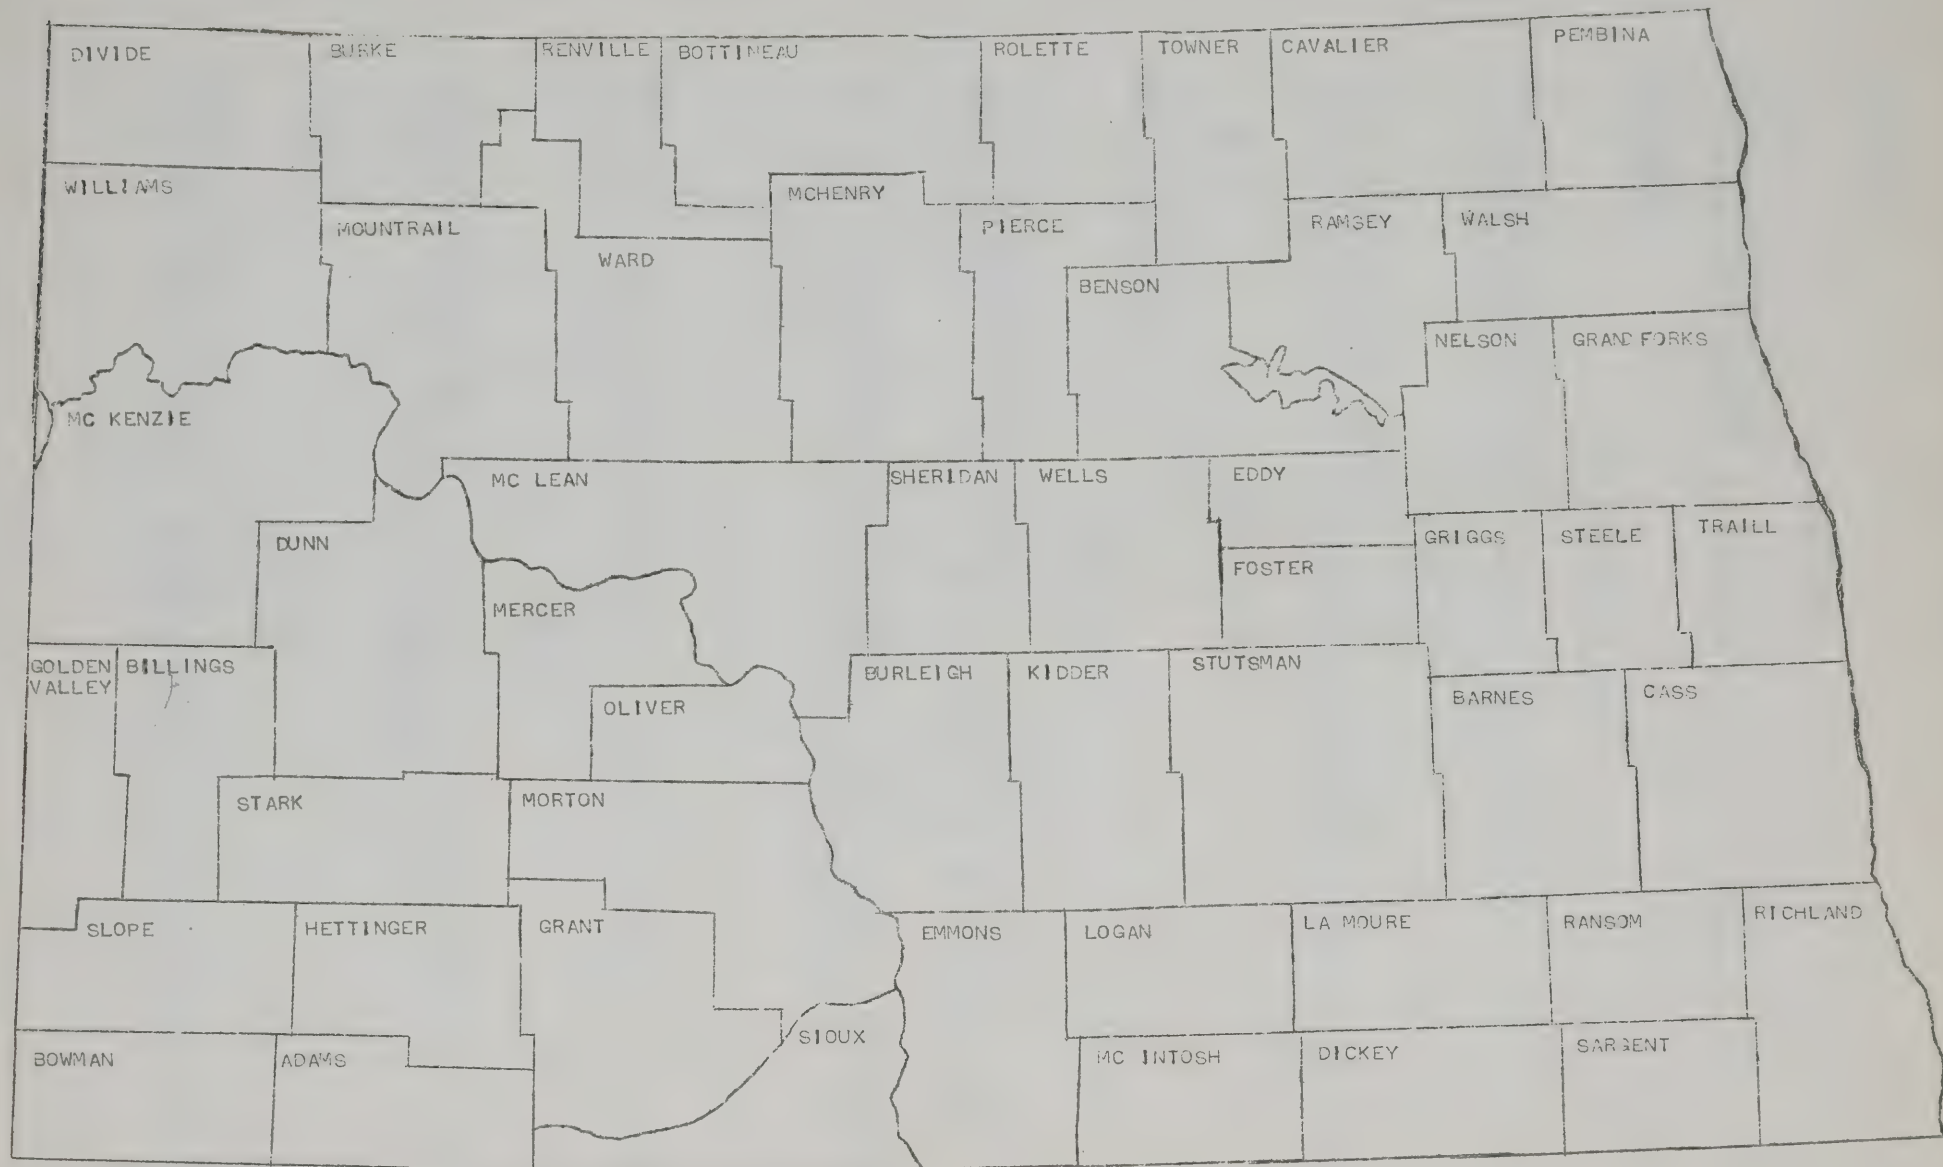

The various phases of editing and publishing this volume were under the direct supervision of Miss Betty Hall, State Supervisor, Historical Records Survey. Mr. Harold Sikkink mimeographed the entire volume, and Miss June M. Middaugh assembled it.

The State Supervisor takes this means of expressing his appreciation to Miss Hall, Mr. Sikkink, Miss Middaugh, and all church officials who cooperated in the production of the Guide to Church Vital Statistics Records by supplying information on their churches and checking various denominational lists.

These publications are issued for free distribution to State and local public officials and to a selected group of public and institutional libraries. Requests for information concerning publications of the Survey in North Dakota should be addressed to the State Director, Service Division, Work Projects Administration, Bismarck, North Dakota.

Blair A. Flegal, State Supervisor
